

MAPS • MAPS • MAPS

ABC Maps Online is the world's most comprehensive collection of royalty-free downloadable maps for schools, academic institutions, and public libraries. Students, teachers, library patrons, and businesses can use our more than 100,000 maps in school reports, school lesson plans, personal research projects, and business reports.

No other reference contains so many maps, map resources, visual glossaries, video dictionaries, geography learning games, and teacher resources as *ABC Maps Online*.

BENEFITS

- All maps are downloadable and royalty-free for non-commercial use.
- Students and teachers can download maps for school reports and lesson plans.
- Library patrons can download maps to support historical and genealogical research projects.
- Business library patrons can download maps for use in marketing reports and presentations.

Geology Maps USGS Latest Earthquakes Map

This map displays all earthquakes magnitude 2.5 or greater worldwide from the past 30 days. Click on a marker on the map to view earthquake information, or use the search feature below to find a specific earthquake. Tectonic plate boundaries are displayed as red lines. For more information about earthquakes, visit the [Earthquake Visual Glossary](#) page.
